

West Melton Primary School
Summer B Y1 Parents Narrative

DREAMS!

As Historians we will... learn about the historical figure of Captain Cook and why he is famous. We will look at how he lived and what makes him iconic. We will look at the differences between how people lived then and how they live now.

As Geographers we will... practice the months of the year and be able to say them in order. We will learn the names and locate the 7 continents and the 5 oceans. We will look at the similarities and differences of these places.

As Scientists we will... learn about the importance of healthy eating, sleeping and looking after our bodies.

As Artists and Designers, we will... use the artist Picasso as inspiration to help us develop a wide range of art and design techniques in using colour, pattern and texture. We will use drawing, painting and sculptures to express our own ideas.

As Responsible Citizens we will... look at the importance of looking after ourselves, we will look at what people put into their bodies and the effect this can have on them.

As Enterprising Learners, we will... learn how to be reflective learners by thinking what we can do next to become even better. We will plan an open event for our mums, dads and carers so that they can come and enjoy our learning with us.

As Mathematicians we will... be working on counting in multiples of 2, 5, and 10. We will begin to use what we know to solve problems. We will continue our work on number bonds and try to learn these by heart. We will broaden our knowledge of fractions and explore finding halves and quarters of amounts and shapes.

As readers we will... be continuing our phonics work. We will become experts at reading our alien language and if you look closely aliens may even invade the classroom! We will also be working on answering questions about what we have read to make sure we are understanding our books.
