

Year 2 Summer Term 2 Parents Narrative

India

As geographers we will...

Be able to locate India on a map and identify which continent it's in. We will look at the river Ganges and investigate the importance of it to the Indian people. We will also look at the climate and its relation to the location of India and the equator.

As scientists we will...

Observe the differences between things that are alive, things that are dead and things that have never been alive. We will also be looking at how plants develop over time from seeds/bulbs into mature plants and how they need water, light and a suitable temperature to thrive and grow

As readers we will...

Enjoy our class book together, working hard to read fluently and with expression. We will develop our book review skills and learn how to give our opinions confidently about the books we read, using examples from the text. We will enjoy the class text 'The Papaya that Spoke', learning the language and structure to help with our writing.

We will celebrate our learning by ...

Making sure that our work is well presented so that we can display some of it. Our work will also be on the website and shared on Class Dojo.

As mathematicians we will...

Continue to follow the White Rose scheme of learning following the mastery concept of using resources first to work out a problem before moving on to picture and written methods. We will place a particular emphasis on our reasoning and problem solving skills.

As Responsible Citizens we will...

Consider difference in relation and beliefs through our topic. We will think about how people impact on the environment and consider ways we can help to look after the planet.

As writers we will ...

Write setting descriptions based on locations in India and write narratives based on the different stories India has to offer. We will be writing non-chronological reports about India and instructions on how to make traditional Indian meals.

As Artists and Designers we will...

Explore Indian art and create rangoli patterns using a range of different media to deliver a specific effect.

As Enterprising Learners we will...

Think about how much our food for a day might cost. We will plan a party and think about the costs involved and how to avoid wastage.
